Biopesticides labeled for use on tomatoes and the diseases specified on the label.

The first section contains products labeled for foliar and fruit diseases. Second column indicates products with label statement that it is for general disease control.
Information is included for products that are also labeled for soil-borne pathogens and diseases.
Below the first section there is information about products that can be used as seed treatments, products only for soil applications, and nematicides.

	Foliar and fruit diseases														Soil-borne pathogens and diseases							
Biopesticide	**General disease control**	**Anthracnose (*Colletotrichum*)**	**Bacterial canker**	**Bacterial speck**	**Bacterial spot**	**Bacterial wilt**	**Buckeye fruit rot**	**Early blight (*Alternaria*)**	**Gray mold (*Botrytis*)**	**Late blight**	**Leaf mold**	**Powdery mildew**	**Septoria leaf spot**	**White mold**	**General**	**Damping-off**	***Fusarium***	***Phytophthora***	***Pythium***	***Rhizoctonia***	***Sclerotinia***	***Verticillium***
